

# Media 9/11 Truth Strategy: highlight hoaxes, ignore best evidence

Mark Robinowitz • [www.OilEmpire.us](http://www.OilEmpire.us) • mark@oilempire.us

the official story and fall back stories (incompetence, blowback) are lies

## best evidence of 9/11 complicity

media focus on demolition theories and “no plane” hoaxes, not best evidence

official story	incompetence theories	blowback theory	proven beyond reasonable doubt		probably true but not provable	probably not true	disinformation that discredits
<p><b>The official story claims that we 9/11 was a surprise attack</b>, and turning the country into a police state will prevent a repeat. <b>9/11 truth is the “third rail” of US politics.</b></p>	<p>The media, both political parties and most of the liberal opposition claim that <b>incompetence is the reason that 9/11 happened.</b> While government operations are not perfect, incompetence cannot explain the suppression of efforts to prevent the 9/11 attacks.</p>	<p>Most Bush critics argue <b>9/11 was “blowback” – revenge for US policies in the Middle East.</b> While there are many people motivated to retaliate for US policies, the war games on 9/11 were not coordinated by Muslims.</p>	<p><b>9/11 allowed to happen:</b></p> <ul style="list-style-type: none"> <li>• very specific warnings from US allies were suppressed</li> <li>• FBI officials undermined agents investigating flight schools before 9/11</li> <li>• US / Saudi / Pakistan / Taliban / al-Qaeda ties</li> <li>• put options betting on American and United stock shows foreknowledge</li> <li>• Bush read “Pet Goat” story instead of ordering military defenses, he was not acting as Commander in Chief</li> <li>• Rumsfeld’s September 10 admission that \$2.3 trillion was untraceable</li> </ul>	<p><b>9/11 given technical assistance to make sure it happened:</b></p> <ul style="list-style-type: none"> <li>• Air Force / NORAD war games that confused the air defenses on 9/11</li> <li>• CIA’s “plane into building” exercise at National Reconnaissance Office (NRO)</li> <li>• some fighter planes moved out of region, making interception impossible</li> <li>• fake blips on radars diverted interception efforts</li> </ul>	<p><b>remote control of the four Boeings: the “hijacking the hijackers” theory. It is likely, but not provable, that Boeing’s “auto-land” uninterruptable autopilot was used.</b> The first plane, Flight 11, flew over Indian Point nuclear power station. Allowing it to happen risked letting the hijackers fly into the nuke if the plane was not remotely controlled. Flight 77 was steered into the under reconstruction, mostly empty Pentagon sector, instead of Rumsfeld’s office or National Military Command Center.</p>	<p><b>demolition theories are not needed to prove that 9/11 was allowed and assisted</b> The twin towers and WTC 7 were bulging and leaning before they fell down. There is no chain of custody for the claims that is usable in any court. It is likely the claim that thermite (which is not an explosive) was found in alleged dust samples is just burned aluminum residues from the cladding on the towers.</p>	<ul style="list-style-type: none"> <li>• <b>no plane hit the Pentagon</b> a hoax created by Donald Rumsfeld Oct 12, 2001</li> <li>• <b>no planes hit WTC</b> less popular than Pentagon “no plane”</li> <li>• <b>Pennsylvania</b> “no phone calls” hoax keeps 9/11 families from working with 9/11 truth movement</li> <li>• inclusion of <b>white supremacist</b> “American Free Press” as credible source of info</li> </ul>

9/11 research is a rabbit-hole of Byzantine complexity full of snares and delusions and peopled with false friends, lunatics, earnest lost souls and a few heroes. It's not necessary to understand all the nuances of science and bureaucracy that allowed the government to get away with mass murder, blame it on swarthy foreigners (of whom many are eager accomplices) and use the incident as (in the words of the Cheney, Jeb Bush et al cabal, the Project for a New American Century) "a new Pearl Harbor." At this critical juncture in human history, it's only necessary to understand why they did it. **The motive was Peak Oil**, a disaster which will affect everyone on the planet, about which all must enlighten themselves and for which all must prepare.

*Crossing the Rubicon: Simplifying the case against Dick Cheney* by Michael Kane

- **Means - Dick Cheney and the Secret Service:** Dick Cheney was running a completely separate chain of Command & Control via the Secret Service, assuring the paralysis of Air Force response on 9/11. The Secret Service has the technology to see the same radar screens the FAA sees in real time. They also have the legal authority and technological capability to take supreme command in cases of national emergency. Dick Cheney was the acting Commander in Chief on 9/11.
- **Motive - Peak Oil:** At some point between 2000 and 2007, world oil production reaches its peak; from that point on, every barrel of oil is going to be harder to find, more expensive to recover, and more valuable to those who recover and control it. Dick Cheney was well aware of the coming Peak Oil crisis at least as early as 1999, and 9/11 provided the pretext for the series of energy wars that Cheney stated, "will not end in our lifetime."
- **Opportunity - 9/11 War Games:** The Air Force was running multiple war games on the morning of 9/11 simulating hijackings over the continental United States that included (at least) one "live-fly" exercise as well as simulations that placed "false blips" on FAA radar screens. These war games eerily mirrored the real events of 9/11 to the point of the Air Force running drills involving hijacked aircraft as the 9/11 plot actually unfolded. The war games & terror drills played a critical role in ensuring no Air Force fighter jocks - who had trained their entire lives for this moment - would be able to prevent the attacks from succeeding. These exercises were under Dick Cheney's management.
